

The Trailer Company.

#### Safe standing position

Even if only partially loaded the flexible cargo shift protection guarantees the stability of the cargo.

#### Well pallets

Rotating spacer boards for a quick securing during the transport of well pallets.

#### Slatboards not needed

Five pairs of sliding posts guarantee a safe positioning for a full load of goods on Euro-pallets.

#### DEKRA-certified

Tested cargo shift protection – according to actual guidelines §§ 22, 23 StVO and §§ 30, 31 StVZO and VDI 2700.

## S.CS 24/L – 13.62 EB Dimensions and weights

## Water, beer and lemonade

### Schmitz Cargobull S.CS DRINK – for effortless transport.

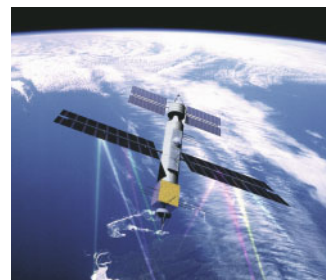

The Curtainsider S.CS DRINK – the ideal solution for the sector of beverages.

- Certified – the cargo shift protection system has been developed in cooperation with the DEKRA and does not use tensioning straps or slatboards, at least for Euro-pallets. Only the special construction of the reinforced body complies to the demands.
- Practically oriented – the easy shifting of the stanchions allows easy loading from the sides.
- Safe – the flexible cargo shift protection secures partial loads to the front and the back. Horizontal cross beams prevent the shifting of stacked boxes.
- Freedom of choice for the load – thanks to rotating spacer boards pallets of different sizes can be transported.

The Schmitz Cargobull S.CS DRINK – smooth trailer runs for your operation.

## The Know-how of success

The **ROTOS®** running gear – a concentration of High-quality components of known manufacturers, EBS, Roll Stability Program, Schmitz Cargobull Axle, Ø 430 mm disc, MRH-air suspension and lifting unit have been perfectly adjusted and optimized for a long life cycle.

**Cargobull Telematics**, the Trailer telematic allows the tracking, monitoring and protection of your trailer. It will keep you informed anytime and you will receive clear cost-benefit information.

The **Chassis** – the solid basis, bolted and hot galvanized with a perfect corrosion protection against rust through. Special I-beams and cross members for higher stability.

## Purpose built for liquids in boxes

### Fast and flexible.

The Schmitz Cargobull Curtainsider S.CS DRINK complies not only to the demands of the beverage industry:

- Flexible – the S.CS DRINK can be used for the transport of normal goods. Without limitations.
- Fast handling – a load of Euro-pallets can be secured with cross members without time-consuming tensioning and stowing.
- Comfortable – the reinforced sliding plate for easy loading and unloading. The self supporting, smooth operating sliding tarpaulin Schmitz Cargobull Safety Roof has been reinforced with diagonal braces, to comply to the special demands of transporting beverages.

Schmitz Cargobull Curtainsider S.CS DRINK – for liquids or solids. Safe transport, even when partially loaded.
